Hidden behind the walls, of much of the entertainment world, lay diabolical supernatural realms of influence over movies, television, music and video games, which Christians are biblically forbidden to view and listen to. Yet within the depths of many of their homes, offices and other entertainment venues are affixed the eyes, ears and minds of many of them, who for various reasons, are making the decision to view certain movies and television shows, which are a direct contradiction, to the word of God.

We seek to inform and encourage people to rely on a thorough Christian rating system that points to the content and extent of the law of God, as reflected in His word, to help them make conscience and knowledgeable viewing and listening entertainment decisions.

In addition, we promote the production and distribution of Christian authored entertainment choices.

Your subscription or advertisement will help us expose the diabolical and make an impact for the kingdom and in the lives of many.
