*Corset Golden*

This garment is designed to whittle your waist away and give you a beautiful waist instantly by straightening your torso and back to an upright position. This is great for losing those few inches at the waist that just won't go away with diet or exercise. It is made of sturdy fabric with lace front panels for a more feminine and slender appearance. It supports you from under the breast area to the hips. The front lace center panels gives a more feminine appearance and the 3 rows of hooks allows you to adjust the corset to your comfort level. With continual use you can reduce the waist two to three inches.

## *Body Reshaping Short*

The Ardyss Body Reshaper is designed with the finest materials and the most advanced design technology to provide the most comfortable body fit. Feels like a second skin. This lightweight fabric controls your abdomen, thins your hips, lifts the buttocks and with its excellent support design in the back area, corrects your posture. This lightweight garment is used for those who need less reshaping but still want light support that will highlight their figure. This Reshaper is designed with the panty leg cut for those who do not need reshaping in the leg area. It has 3 hooks in the crotch area for easy comfort. Should be worn with the Angel Bra for optimum reshaping of your body.

## *Maternity Girdle*

The Ardyss Maternity Panty Girdle is designed to give you the best comfort and support during your pregnancy. This garment is designed with a soft cotton stretch front panel that will adjust over your stomach as the baby grows. It also has 2 front panels that cross in front and attach in the back with adjustable hook and loop tape. This garment also has a support band in the lower stomach area and one on the sides, which goes down and around the buttocks, to hold your hips snug and to lift and hold your buttocks in place. This girdle will give you comfort from the first trimester to childbirth. It helps support and removes the weight from the spinal column and helps balance the weight on the body. It supports the pelvis to keep it from dislocating from the weight of the baby. It is made of a soft cotton Lycra with criss-cross support bands in the front that adjust in the lower back area. The hook and loop on the straps of the girdle allow you to adjust the support to your comfort. When worn with the Ardyss Angel Bra, you will receive the optimum comfort and support.

## *Some great benefits of the Angel Bra*

Straps- They are made from fabric and do not have elastic components, so they do not burn

Buckle - To tighten and loosen straps

Loop - To tighten and loosen cups

Suspension triangle - it softly reshapes the breast in its correct position, compressing and firming up the tissue

Seam of the cup - To favor the correct position of nipples

To allow air circulation in the breast skin, so the area does not sweat

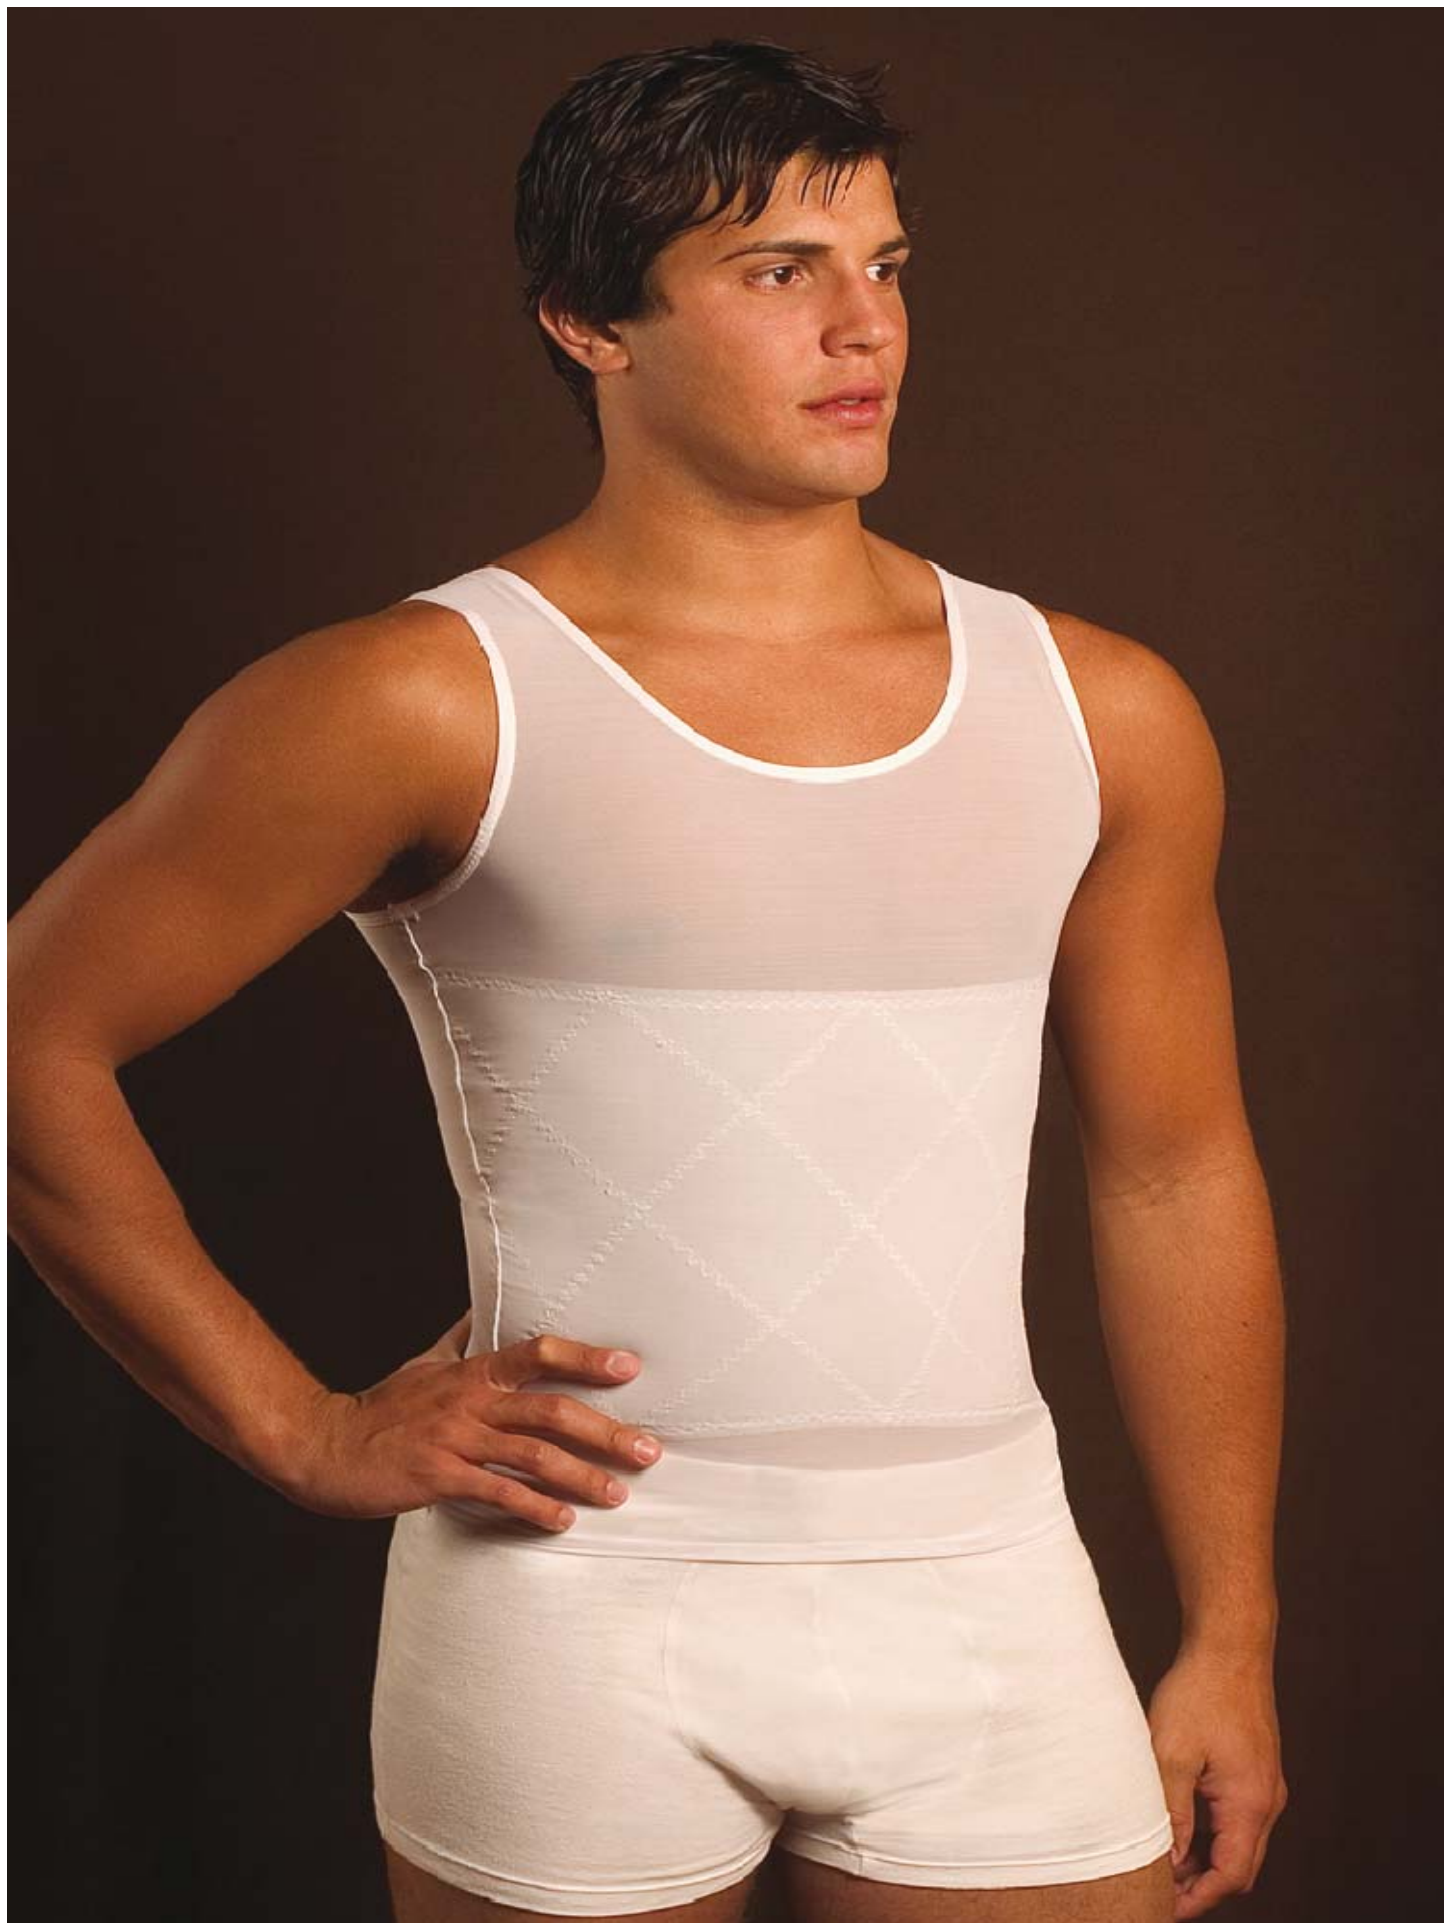

Suspension band - They help to increase, decrease or equalize the size of the breast, as well as to support their weight

Lower elastic band - It allows flexible movement of the thorax. It does not lose elasticity
